DATE: 5th – 7th September, 2014

VENUE: SHERATON IMPERIAL KUALA LUMPUR HOTEL

*The modules will be presented by **Dr Thierry Hertoghe, MD.***

Dr. Thierry Hertoghe, practices lifespan/pro-aging medicine and hormone therapy. He represents the fourth consecutive generation of physicians who have worked in the field of hormone therapy.

As a pioneer in many medical matters, Dr. Thierry Hertoghe has co-authored the concept that aging is mainly due to the progressive appearance of hormone deficiencies aggravated by nutritional deficiencies and a poor lifestyle. By correcting the hormone deficiencies and other important factors, fine tuning and personalizing the treatment to each patient, he has been successful in medical therapies – often beyond many patients' expectations.

*Dr. Thierry Hertoghe is the president of two important medical societies: **The World Society of Anti-Aging Medicine (WOSAAM)**, a leading international anti-aging/lifespan scientific society for physicians and **The International Hormone Society (IHS)**.*
